🐙 github.com/krapadance

Software Engineer & Data Scientist with 10+ years of professional experience designing and developing software, data platforms, and AI-powered applications across digital marketing, data management, ERP integrations, and scientific research. Hands-on experience across the full development lifecycle, from system design and API development to databases, data pipelines, DevOps, and production deployment. Experienced in building **LLM/RAG applications, data extraction and automation solutions, graph-based data platforms, and third-party integrations**. Comfortable working across disciplines, translating complex requirements into practical solutions, and collaborating with distributed, international teams and external partners.

📁 Work Experience

Software Developer/Data Scientist, Web2Climate 🔗

11/2024 – 11/2026

Athens, Greece

- Designed and implemented end-to-end data pipelines and AI solutions from prototype to deployment, including automated data collection from social media APIs and alerting mechanisms for monitoring critical events.
- Co-developed scalable LLM-based systems for automated impact data extraction and Retrieval-Augmented Generation (RAG) applications for querying heterogeneous knowledge bases.
- Worked closely with multidisciplinary teams and more than 20 partner organizations across EU-funded collaborative projects

Software Developer, Weconnect.software 🔗

06/2023 – 11/2024

Athens, Greece

- Design and Development of conectadora platform, integration between SAP and online marketing channels
- Development of <https://mydataease.gr/> platform, integration between invoicing software and AADE's myData
- Maintenance of legacy projects
- Training and mentoring new hirings

Software Developer/Scrum Master, Weaver Technologies 🔗

08/2018 – 11/2022

Delft,

The Netherlands

- Development of wvr.io, a graph based data management platform
- Development of F5 Scan, an automated qr placement on PDF documents to check document versioning
- Development of Weaver DB, a graph database designed on top of PostgreSQL
- Consultancy for client specific projects for amongst others Rijkswaterstaat, Count & Cooper, and Phat Loot DeFi
- DevOps
- Client Support

Software Developer & Junior Data Scientist, WeConnect 

Marketing Company with in house software department

- Development of Effective Profiles Platform, social data gathering and insights
- Scrum Master
- Consultancy for client specific projects and data
- Supervision and support of new employees/interns

02/2016 – 06/2018

Gouda,
The Netherlands

 Education

WO master, Media Technology, Leiden University

09/2013 – 07/2015

Leiden,
The Netherlands

Diploma, Electrical and Computer Engineering, University of Patras

09/2004 – 07/2012

Patras, Greece
